

E-BULLYING

E-Bullying is a presentation designed to inform and enlighten parents, students and teachers about the realities of cyberbullying and how to identify when it is happening, how to manage the situation, and next steps. Students will be encouraged to make positive choices

E-Bullying for students (Elementary or Secondary Students)

Assembly style: One hour presentation in the library or gymnasium for one grade or 'division' at a time whenever possible.

Classroom presentation: One hour presentation to students in their classroom which allows for more questions and further exploration of strategies.

Additional presentation options: A full day of presentations, one grade at a time, based on the school schedule. The best possible location for this type of day is in the library or gymnasium with students coming to the presentation at their scheduled time and sit on chairs.

E-Bullying for parents

A two hour presentation for parents, that explores the realities of cyber bullying. You will learn how kids are bullied on-line, how to identify sign that a child is being harassed on-line as well as some tips to using effective monitoring programs.

E-Bullying for school staff (Elementary or Secondary staff)

Lunch and Learn: Brief presentation about the Bullyology concept during a scheduled lunch at your school. This option also lends itself to a one hour session immediately following the school day.

Teachers, custodians, CYW's and office staff are all encouraged to participate in the session. You will learn to implement strategies and discuss their implementation as a team.

P.A Day or PLC time: We will deliver a presentation created specifically designed to fit the needs of the school staff and the climate of the school environment.

Note: All presentations include reproducible handouts if applicable. The opportunity for follow up and support is also always available.
