

PROGRAM DEVELOPMENT / PROJECT MANAGEMENT

SMc Consulting has solid base in developing programs for youth services, as well as administrative programs, staff scheduling and team building.

The following are some areas that may be included in the development of programs or the management of projects. SMc Consulting is available to discuss *any* opportunities that may arise in the area of service.

- Developing unique youth programs specific to the individual needs of the youth and his/her family in their entirety
- Assessment and evaluation of existing programs
- LifeSkills programs
- Comprehensive behaviour plans
- Implementation and training for new, innovative youth programs
- Pre-independence preparation groups, classes, workshops, etc...
- Event coordination / Facilitation

Implementation of structured *LifeSkills* program for children and youth is available. Facilitation or training to parents or staff is also available to ensure proper delivery.

SMc will work with Service Providers to develop *preventative or pro-active* programs for children and youth

Behaviour plans are available to group home agencies as well as parents after a thorough observation and consultation.

Event Coordination / Facilitation is available to agencies or groups who have received funding for community forums, events, charity events, etc...
